### **International Level Crossing Awareness Day press conference, 7<sup>th</sup> June 2012**

*"Improving safety on level crossings concerns all of us.*

*PKP Polish Railway Lines Company as an administrator of Polish railway infrastructure carries on a number of comprehensive educational and preventive activities to eliminate accidents on level crossings, which unfortunately still occur mainly due to the carelessness of vehicle drivers.*

*On 24<sup>th</sup> May this year we inaugurated VII edition of an awareness campaign: Safe rail-road level crossing – "Stop and live!" We carried on a set of special events including accident simulations combined with press briefings and rescue actions in 22 cities across Poland. As in previous years we are determined to strengthen and consolidate our actions as well as to introduce new and innovative ones. "*
